Experience

Portfolio | Responsive Website

Frontend Development Project (Sep 2023-Oct 2023)

- Learned the basic fundamentals of HTML, CSS, & JavaScript
- Applied the different coding techniques to produce a live interactive website
- Became accustomed to GitHub and VS Code

Healing Garden | iOS & Android Native Mobile App

CareerFoundry Case Study (Aug 2023)

- Adhered to the rules & regulations of Material Design and Human Interface Guidelines to make screens.
- Developed low, mid, & high fidelity wireframes to then prototype in Figma.
- Tested prototypes with participants for feedback & iterations.

CASHORA | Money Management Web App

CareerFoundry Case Study (Aug 2023)

- Created brand guidelines document to form basis of product's brand
- Generated user stories to then develop user flows
- Incorporated user testing results into high fidelity designs
- Designed mock-ups & a desktop breakpoint

Tasty Fix | Responsive Recipe Web App

CareerFoundry Case Study (May 2023-July 2023)

- Applied the process of user-centered design & mobile-first approach to develop a responsive web app.
- Sketched rapid prototypes, conducted user interviews and A/B testing, developed personas, and applied feedback to wireframes.
- Designed 30+ high fidelity screens of different device sizes, produced mockups, and a style guide based on stakeholder's requests.

Mindfully | Productivity Web App

CareerFoundry Case Study

- Defined 3 key functionalities for users to complete
- Analyzed & researched competitor apps
- Created a well- established grid system and an effective visual hierarchy
